COVID-19 Communication to milk tanker drivers

REV 00

13/03/2020

The Facts

Most at Risk

- Anyone who has been to an affected region in the last 14 days **AND** is experiencing symptoms
- Anyone who has been in close contact with a confirmed or probable case of COVID-19 (Coronavirus) in the last 14 days **AND** is experiencing symptoms

Prevention

Wash

your hands well and often to avoid contamination

Cover

your mouth and nose with a tissue or sleeve when coughing or sneezing and discard used tissue

Avoid

touching eyes, nose, or mouth with unwashed hands

Clean

and disinfect frequently touched objects and surfaces

As a driver, you may have to travel to different farms / sites across the region and interact with the general public.

Strathroy Dairy's Management Team are constantly monitoring the status of the outbreak based on reputable sources of information including the [HSC](#), the [HSE](#) and [HPSC](#) websites.

Precautions to prevent or limit the spread of COVID-19 include:

- Carry and use a personal bottle of alcohol based hand rub with you as hand wash facilities may not be available;
- Carry and use tissues for sneezing/ coughing;
- Dispose of tissues using a designated disposal bag;
- Use a disinfectant to regularly wipe down surfaces inside your vehicle;
- Avoid physical interactions such as shaking hands and maintain a safe distance of at least 1 metre.

- **At the weighbridge, reduce social interaction. Only 1 person at a time in the office**
- **At the testing lab, stay in your cab, wait for the sample to be taken by Strathroy staff, and move forward to intake area**
- **At intake area and CIP station, limit social interaction with other drivers and Strathroy staff to a minimum**

At Strathroy Dairy Ltd

DO
